

Rules of Cupa Napoca Contest

Organized by: CSM Cluj Radio Club

Period of operation: every year on the first full weekend of May. In 2009, this will be on the 2nd and 3rd of May. The contest begins Saturday at 1400 UTC and ends Sunday at 1400 UTC

Bands and modes: 144, 432 and 1296 MHz, modes CW and PH (SSB and FM)

Contesting categories

SOSB – single operator, single band

SOMB – single operator, many bands

MOMB – multi operator, many bands

Controls

RS(T) + 001 restarted on each band + WW QTH Locator.

Scoring

1 km = 1 pt. There is no multiplier.

Working Characteristics

Each operator may participate for only one category.

Every station may be worked only once on the same band, regardless mode.

The contacts are valid both with YO and non-YO stations. Anyhow, at least one YO station is mandatory to be worked during the whole contest, regardless of band or mode.

Observance of established band plans is strongly encouraged.

The contacts via repeaters, VoIP (Echolink-like) or cross-band are not allowed.

Log contents and format

A separate Contest log for each worked band is required.

All data required by the standard log format are mandatory for each contact. The time and serial number must be strictly sequential on each band.

The Summary sheet has to contain the contesting category.

The preferred submission format is the electronic one, in EDI or TXT. Paper logs are also accepted.

Awards and trophy

A separate classification will be made for each category.

The top three callsigns in each category will receive the diplomas of Napoca Contest.

The callsign achieving the biggest number of points will receive the NAPOCA CUP.

Log submission

The logs in electronic format (preferred), will be sent within 30 days, as attachment, to one of the following addresses: cupanapoca@yahoo.com or yo5fmt@yahoo.com

The paper logs will be sent within the same period to:

Radioclubul CSM Cluj, CP. 168, Of .Postal nr. 1, Cluj Napoca, RO-400119, Romania
