Shopping in St.Moritz

"Shopping in style"

St.Moritz has the most extended and luxury shopping possibilities in the wide area. The town consists of St.Moritz Dorf (the city) and St.Moritz-Bad. The train station is situated in St.Moritz-Dorf. It is a 10 minute walk from the train station to the city center, where many shops can be found. There is a sufficient number of restaurants to have lunch, and if you like you can take a short walk on the promenade along the lake. St.Moritz-Bad can be reached by bus or by foot. The shopping possibilities are a bit limited here. The largest supermarket in town is located along the way between St.Moritz-Dorf and St.Moritz-Bad.

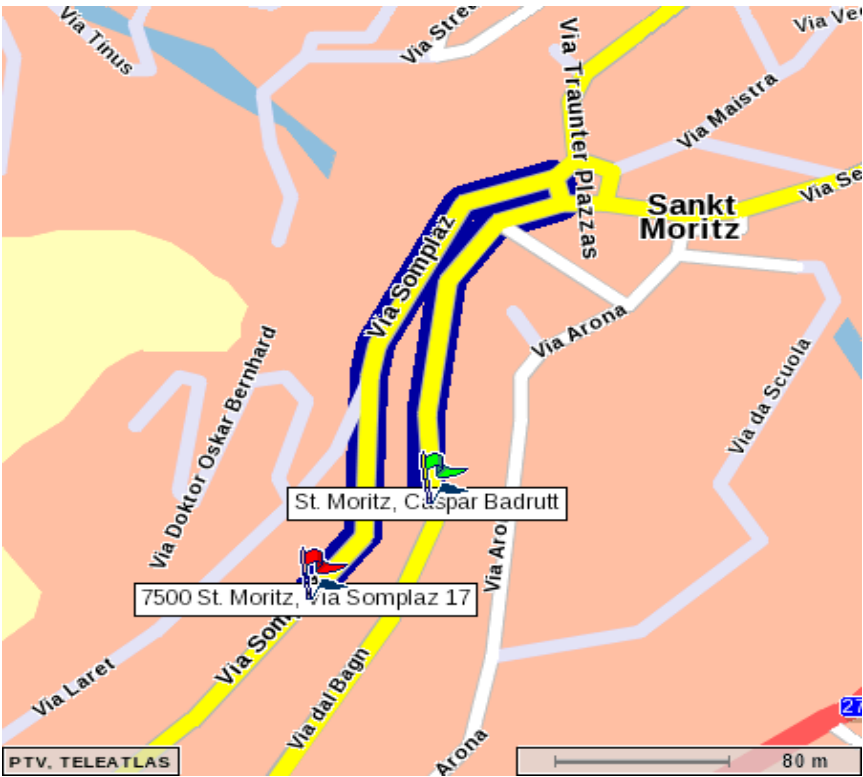

ST. Moritz: town, or Gemeinde (commune), Graubünden canton, southeastern Switzerland. Saint Moritz lies in the Oberengadin (Upper Inn Valley) and is surrounded by magnificent Alpine peaks. The town consists of the Dorf (village), the Bad (spa), and the hamlets of Suvretta and Champfèr. Originally known for its curative mineral springs, it became a fashionable spa and summer resort in the 17th century. Since the late 19th century, it has developed as one of the world's most famous winter-sport centres and was the scene of the Winter Olympic Games in 1928 and 1948. The resort is on an international highway, is linked by rail with international lines, and has an airport at Samedan, just northeast. Saint Moritz depends on tourism and the hotel industry. The population speaks German and Romansh and is mainly Roman Catholic. Pop. (2007 est.) 5,119.

"Discover the less well-known places of a tourist centre"

Zermatt is especially known as a luxurious winter sports resort. Even in summer, some ski runs are open near the gondola station of Klein Matterhorn. A visit to Zermatt is worthwhile, even if you do not stay in this crowded tourist centre. There is a great sopping zone with many restaurants, and you can combine your visit with a trip to one of the many viewing points in the immediate area, among which the Gornergrat, Sunnegga and Klein Matterhorn. In spite of mass tourism, it is very nice to walk through Zermatt to discover the less well-known places of this car free town. **A walk of an hour takes you along the Alpines Museum, St. Peter's English Church, the parish church with its graveyard for mountaineers, classical wooden Walliser houses, the district of Winkelmatten with beautiful chalets and a little chapel, and through the Bahnhofstrasse, with its many stores, hotels and restaurants.** The tourist office can be found on the station square in Zermatt. **Zermatt is a car free town that can be reached by train only.** Drivers can use a large parking lot in nearby Täsch. There are frequent train services to Zermatt from here (travelling time 10 minutes). You can park in Visp as well, which is easy to be reached by car from the Rhône valley. A train to Zermatt departs from Visp about once per hour (travelling time approximately 65 minutes). This spares you from a car ride through the Matter valley (30 km/19 miles, difference in altitude 790 m/2590 ft, travelling time about 60 minutes).
